Canberra Airport Pty Ltd
Level 1, 2 Brindabella Circuit
CANBERRA AIRPORT ACT 2609

19 May 2009

Attention: Stephen Byron

22 MAY 2009

Dear Stephen,

We read the Canberra Airport Master Plan with interest and would like to offer some comments.

1. The proposed freight hub for Canberra would be a growth industry especially if linked with rail services to Sydney, Melbourne and regional NSW. It would provide jobs in Canberra and result in improved rail infrastructure. Growth in the private sector provides work for our company but also a variety of employment opportunities for young people in Canberra.
2. Because of the problems faced by major airports in Melbourne and Sydney it is essential that housing development not limit the working of the airport and that the airport remain curfew free. We have an opportunity to learn from the mistakes of other airports and declare areas free from housing under the flight paths. The needs of all airport users now and in the future should be given precedence to housing development around and near the airport.

We would like to offer our support for the master plan and obtaining the necessary approval.

Yours sincerely

Roy Sergi
Managing Director
