

CAPITAL AEROMOTIVE PTY. LTD.  
10 Tyson Drive  
PIALLIGO ACT 2609

Mr Stephen Byron  
Canberra Airport  
2 Brindabella Circuit  
Brindabella Business Park ACT 2609

Dear Mr Byron,

Firstly we would like to thank you for the opportunity to respond to the Canberra Airport 2009 Preliminary Draft Master Plan.

Capital Aeromotive Pty Ltd has been associated with the Canberra Airport for a period of 8 years operating a service station facility with a mechanical workshop and franchised fast food outlet incorporated within. We employ a total of twenty staff – eight fulltime and twelve casual and our business has enjoyed a significant growth with the development of the Airport.

Capital Aeromotive believes that the continued upgrading and expansion of the Canberra Airport precinct as proposed in the Preliminary Draft Master Plan is an essential prerequisite for the future development of the ACT which will act as a strong tourism and economic driver for the region.

We would not like to see the development of Canberra Airport in any way limited by the development of a proposed housing estate under the existing flight paths which will ultimately lead to noise sharing in currently quiet Canberra suburbs.

Canberra Airport supports the small businesses that are situated within it to fulfill their potential and the Airports' vision for future expansion can only continue to encourage employment and economic growth throughout Canberra's community.

Capital Aeromotive fully supports the direction of Preliminary Draft Master Plan and seeks to be further involved in the further development of the plan.

Peter Taylor

Managing Director
