7-May-09

Dear Stephen,

Thank you for your letter of 17/4/09 re Preliminary Draft Master Plan.

As a contributor to the development and operation of Canberra Airport, I am pleased to confirm my admiration of developments in the precinct to date.

Without you and your family's hard work, foresight and unbounded enthusiasm the airport would not be even close to what it is today.

Canberra Airport will always remain the major gateway to the City and your Draft Master Plan outlines the essential proposals to achieve excellent long term developments and results.

International flights are inevitable and should gradually be introduced. They should be curfew-free and any residential development under or near necessary or proposed flightpaths should be vigorously opposed.

An increase of aerial freight demand is also inevitable as Canberra grows in population density, I am in favour of a freight hub.

I am hopeful that a VFT will be routed through Canberra and that should make it possible for Canberra to play a role as Sydney's 2<sup>nd</sup> Airport.

I hope these comments are of some benefit to your goals and aspirations, please don't hesitate to contact me for any further input.

Yours faithfully,

John Collet,  
Director.
