

Ms Cathy Aves
Canberra Airport
2 Brindabella Circuit
Brindabella Business Park
Canberra Airport ACT 2609

Dear Ms Aves

In response to your invitation for public comment on your 2009 Preliminary Draft Master Plan:

We did not find that the Draft provided us with clear & independent information as to the full impact a 24 hr freight hub would on our homes & health. We are on the edge of the High Noise Corridor, and are already affected by the frequency of aircraft and noise levels – particularly the larger cargo planes. We are concerned that our quality of life would be further impinged should an increase in aircraft frequency be allowed to go ahead.

Therefore we request

- . Further information in relation to this matter especially relevant to the direct impact to our health & homes
- . A nighttime curfew on aircraft movements from 11pm to 6am
- . No 24 hr freight hub or second Sydney airport
- . Recognition of health standards regarding sleep disturbance

Yours Sincerely,

Micheal & Angela Cotter

Jerrabomberra NSW 2619
