Subject: Development at Tralee

Good Morning, I have been a resident in Canberra since 1960. During my early years I spent a lot of time with my mate John Morrison who was the son of the Late Bernard Morrison. He owned what was called Tralee Station and had 1000's of tourists through every year. I can even recall as far back as the mid 1960's that Tralee was under the main Canberra Airport flight path. It never bothered me as I love Aeroplanes however I do agree with you that today to build houses under the Flight path is fraught with future complaints. I can see people who buy there saying "its ok I am aware that its under the flight path" however in a few years complaining about the increase in the number of flights, people in general have short memories. For what it is worth I wish you all the best with the Future Development of the Canberra Airport and support the No Development under the Flight path.

Yours truly,

David L Dean
