Canberra Airport Group Pty Ltd
Level 1, 2 Brindabella Circuit
Canberra Airport ACT 2609

Attention: Mr Stephen Byron

- 6 MAY 2009

Dear Stephen

I am writing to offer you our full support and inform you of how proud we are to be involved in the ongoing development of the Canberra Airport and Brindabella Business Park. We consider it to be one of the most significant developments in Canberra's recent history.

We have put together the following comments/ suggestions that may be of assistance to your future proposals;-

It is our belief that any development of residential housing under the existing flight paths will only create future conflict between residents and the Canberra Airport, regarding aircraft noise and may also have a negative impact on any future plans of the expansion of international flights or the establishment of a freight hub.

Many of my contacts in Sydney have commented on the vast benefits of a very fast train (VFT) from Sydney to Canberra and what would be of even greater benefit then on to Melbourne. Using the VFT from Sydney for a lot of people would be quicker and cheaper than travelling to the Sydney Airport and paying for parking. Also the VFT in conjunction with the Canberra Airport could act as Sydney's second airport, which would generate employment in our region.

We believe with certainty that the continued growth of the Canberra Airport is a positive step not only for the Canberra region but Australia as a whole. Our staff and management look forward to our ongoing relationship with Canberra Airport Group Pty Ltd and offering you our continued support.

Yours sincerely
