**Subject:** Masterplan - Preliminary draft Feb 2009

Steve,

I have read the revised Preliminary Draft Master Plan Document dated February 2009.  
I would like to congratulate your organisation, on the comprehensive document they have produced.  
As an Engineer, who has been involved in the design and construction of aerodromes; for over 40 years, I believe it is a realistic representation of the constraints and opportunities of developing a significant Regional Airport and will ensure an Iconic Australian National Capital City Airport, in the future.
