Dear Ms Aves,

I am responding to the Canberra Airport's Draft Master Plan 2009. I think that its 24 hr Freight Hub proposal is outrageous. There is absolutely no need for that amount of air traffic. Since when do the desires of a few (more goods being shipped) outweigh the needs of many (for sleep and peace)?? Sleep deprivation is a form of torture - internationally recognised. Planes flying over our heads all night will cause sleep deprivation. Thus, Canberra Airport will be guilty of torture - violating our Human Rights. Even Sydney Airport - which has some excuse for being busy - has a curfew. I totally, absolutely, with every fibre of my being, oppose your ~~the~~ Master Plan.

Yours sincerely,

Kennie McKinlay
