The one thing I need is for my current lifestyle to be maintained. The main area of concern is aircraft noise. I live near the Chisholm shopping center. I do not want any increase in noise. I will not accept that I have to bear additional noise. Why do I have to take a share of the noise suffered by residents of places like Tralee find they have inherited when they build under a flight path. No thanks. It was there before you built so you can have it all.

We found that the noise levels here were acceptable before we built. We did not expect others to take some for us and for the same reason we cannot see how those who build in a noisy area can expect us to take some for us. This sounds like a typical "Johnny come lately" syndrome.

Just a simple plea from an ordinary Mr and Mrs Public; please no additional aircraft noise over our area.

Thank you

Philip Rayner
