Emergency Exercise Simulation at Canberra Airport

Canberra Airport's biannual emergency exercise will take place this Wednesday, 13 November 2013.

This is a live field exercise designed to test the Canberra Airport Emergency Plan and will involve Qantas (the nominated airline for this year's exercise), volunteer "passengers", and responses from various emergency services agencies including Police, Ambulance and the Fire Brigade to a simulated aircraft accident at the airport.

Passengers and other members of the public should not be alarmed by any unusual concentration of emergency vehicles and personnel at or around Canberra Airport during the exercise.

Media access to some elements of the exercise will be available. Interested media should contact Jane Seaborn in advance on 0414 829 282.
