ACTION FROM ACTION WELCOMED BY CANBERRA AIRPORT

Canberra Airport has welcomed the decision by Transport Canberra to provide a direct bus service from the airport terminal to the city.

Canberra Airport's Managing Director, Stephen Byron, said the decision would provide an alternative mode of transport for incoming passengers or those departing from the city.

"This will provide 64 services each week day, 26 services on a Saturday and 24 on Sundays between the terminal and the city, and we are delighted," Mr Byron said.

"The airport site, including the business parks, is now serviced by over 110 weekday services by ACTION buses, which is a great contribution towards the community accessing this airport.

"We have been discussing the need for bus services with Transport Canberra for some time, and are pleased the new services to the terminal will start on Monday 20 March.

"This will increase the transport offering for airport passengers, in addition to taxi services and Uber ride sharing.

"Airport passengers have been well serviced by the Airport Express shuttle service run by Royale since September 2011. Royale has been very generous in providing this service, and we express our gratitude to them for complementing the Airport's transport offerings.

"The decision by Transport Canberra will be particularly welcomed by our low cost carrier passengers, who will be well serviced for departures and arrivals."
