COMPLAINT AND ENQUIRY HANDLING

Canberra Airport targets a 100% response rate in its handling of customer complaints and enquiries.

This is not always achievable due to the way in which passengers deliver their complaints, with many electing not to provide any contact details for a response by the Airport following an investigation of the complaint.

In this quarter Canberra Airport provided a written response to 100% of the complaints and enquiries it received from passengers, other visitors of the Airport and the general public.

For the April 2022 to June 2022 quarter, Canberra Airport received 3 items of customer feedback.

“You need to pick up your game. 1 security checkpoint open, with more than 250 people waiting to go through, and queues are now almost out the door. Very poor planning.”

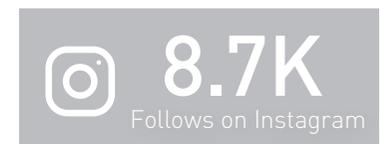

ITEMS OF CUSTOMER FEEDBACK RECEIVED BETWEEN APR - JUN 2022

OF COMPLAINTS AND ENQUIRIES RECEIVED A RESPONSE

- 3 complaints
- 0 Compliments
- 0 general enquiries

SOCIAL MEDIA FEEDBACK

“I wanted to give special comment to the security scan staff. Never seen a friendlier, happier and most polite team to what must be a very challenging job. We do lots of airports and these guys are the best. Thank you for a great start to our trip”

NOTIFIABLE QUALITY OF SERVICE ISSUES

A notifiable quality of service issue is triggered when, in each period, the number of complaints on a quality of service theme are equal to or greater than 0.1% of passenger throughput. Where this occurs, the Airport has 60 days to notify the Commonwealth Department of Infrastructure and Transport of the quality of the issue and provide details of corrective action being undertaken to address the quality of service issue.

There was no notifiable quality of service issues during the period.
